One Pound Treats 32 Bushels!

New Improved  
**CERESAN**  
puts more profit  
in WHEAT

*New Improved Ceresan*—the cheapest dust treatment for seed wheat—does 4 things to cut growing cost and increase profit! Prevents poor stands caused by scab seedling blight. Controls stinking smut even when seed is badly infected. Gives you better yields of cleaner grain. Saves dockage! One pound treats 32 bushels of seed for about 2c a bushel. Easily applied with treater or shovel. One-lb., 75c; 5-lbs., \$3.00.

Use Ceresan for other cereals and cotton; Semesan Jr. for corn; Improved Semesan Bel for potatoes; Semesan for vegetables and flowers.

NEW IMPROVED  
**CERESAN**

**I**s available only in one pound and five pound tins. Each tin includes a measure and complete instructions.

WHOLESALE PRICES

	RETAIL	DEALER	Cases Contain
1-lb. tin . . . . .	\$0.75	\$ 6.00 per doz.	2 doz.
5-lb. tin . . . . .	3.00	24.00 per doz.	1-2 doz.

Garden Seed  
For Spring

We are now busy milling, hand picking and conditioning new crop beans, peas, radishes and other garden seeds. Crops are nearly all excellent in quality due to good bright weather at harvest time. Yields are only normal and in some varieties below normal due to hot and dry weather during the growing season.

Undoubtedly the seed acreage of a large percentage of the vegetable varieties was small. This is a natural result of the past three years of low prices, poor returns and the decreased ability of some firms to grow and finance normal supplies. In addition to this, the surplus which existed three years ago in a number of varieties has disappeared.

It is therefore safe to expect a general upward trend in garden seed prices and we urge our customers and friends to cover at least a share of their spring requirements by placing orders now. We are prepared to quote now, spring delivery. Send us your list or send for a quotation blank upon which to submit your spring list.
